

# Vcheck V200

## Your Best Treatment Plan is in the Numbers

Affordable, rapid and proven, Vcheck is the only in-clinic immunofluorescence assay analyzer that captures 13 biomarkers, including Canine NT-proBNP. Vcheck improves patient care by delivering actual quantitative results in minutes, eliminating estimates, ambiguity and the need for reference lab confirmation. As a multiple-test analyzer, Vcheck can be used in-clinic as a complement to your point-of-care lab for time-saving diagnosis and faster initiation of treatment plans.
